JANUARY 14TH CLUB MEETING

PHOTOGRAPHY WORKSHOP & TRAVEL PRESENTATION

Two of our members, Chris Kardos and Gail Vandewalker, participated in a photography workshop in late September and early October to capture fall colors in the San Juan mountains. They also took a couple of days in advance of the workshop to visit and photograph Monument Valley located on the Utah / Arizona border. Following the workshop they took a day for photography exploration at the Black Canyon of the Gunnison (a National Park in Colorado).

Chris is will give a brief presentation about their trip at our January meeting. (Unfortunately, Gail will not be able to attend or co-present – she will be on yet another workshop at that time).

Chris will share some details of the experience, things they learned from the instructor and show his photos from the trip.

VINTAGE PHOTO RESTORATON

Connie Wedemeier will give a Photoshop tutorial using techniques to restore vintage photos. Among other tools, the Photoshop Neural Filter will be explored.
